EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems	New York, NY
Master of Science (MS) in Computer Science Concentration: Full-Stack Development GPA: 3.6/4.0	May 2024
University of Mumbai	Mumbai, India
Bachelor of Engineering (BE) in Computer Engineering GPA: 7.16 / 10.0	May 2021

RELEVANT COURSEWORK

Algorithms & Computing Theory | Mobile Web Development | Database Management | Operating Systems and Architecture | Computer Organization | Data Structures | Human Computer Interaction | Parallel Programming | Game Programming

SKILLS

- **Programming Languages:** Java, Python, C/C++, C#, ABAP
- **Web Development:** HTML, JavaScript, CSS, React.js, Node.js
- **Database Management:** MySQL, MongoDB, Firebase DB, Microsoft SQL Server
- **Software / Tools:** AWS Lambda, AWS Serverless, AWS CloudFormation, Amazon S3, RestAPI, NumPy, Pandas, Scikit-learn, TensorFlow, Ggplot, Agile/Scrum, Figma & FigJam, Unity, Git

PROFESSIONAL EXPERIENCE

Fourth Signal Pvt LTD	Mumbai, India
Associate ABAP Consultant	Jul 2021 – Aug 2022
• Designed and developed over 50 ALV reports and Module Pool programs for Non-Banking Financial Company clients using SAP ABAP, resulting in a 20% reduction in report generation time. • Engineered a detailed documentation process for troubleshooting stored procedures, utilized by 10 developers, which improved knowledge sharing and subsequently reduced repetitive errors by 40% in the ABAP Server environment. • Ensured smooth execution of critical business processes of the servers, increasing uptime to 30%. • Promoted within 8 months due to strong performance and organizational impact - ahead of schedule by 3 months	
Alliance Innovation and Technology	Mumbai, India
Software Developer Intern	Dec 2019 – Jan 2020
• Developed an Android HRMS application for school management, resulting in a 30% reduction in HR administrative tasks and providing an efficient platform for managing employee data, attendance, and payroll. • Designed web scraping program in Python to help the firm download stored data, including over 10,000 students and courses, enriching internal data and increasing research efficiency by over 50%. • Enabled bulk report downloading and seamless data integration of 10,000 records into a Firebase NoSQL backend database.	

PROJECTS

Contactxs	Jan 2023 – May 2023
• Spearheaded development of a Contacts app that demonstrates proficiency in ReactJS and Firebase, providing a robust solution for contact management. • Leveraged ReactJS framework to build a cross-platform mobile application with a focus on responsive design and intuitive user interface. Leveraged Firebase Firestore for scalable data storage, enabling real-time updates and synchronization across 95% of users in less than 2 seconds, while maintaining zero downtime during synchronization.	
Circular Pie	Sept 2022 – Dec 2022
• Collaborated in a team of four to design and develop Web application that allowed users to customize and order pizzas. • Implemented technologies such as HTML, CSS, and JavaScript to build the website's front-end interface to order through payment gateway API. Integrated back-end functionalities using Python and MySQL to handle inventory management, and customer data storage. • Conducted Scrum meetings as a team using Agile methodology to create the product in sprints, performed requirements discovery and conducted research on competitor products, and created use case and system architecture diagrams to ensure product features aligned with user needs and reducing scope creep by 15% throughout the development process .	
Text to Image Generator	Jan 2021 – Jun 2021
• Implemented advanced machine learning models, with a focus on Generative Adversarial Networks (GANs) models using Python. Front-end website powered by HTML, CSS, and JavaScript. • Specialized in text-to-image generation, processing over 5,000 images for model training, enabling the creation of realistic images based on textual descriptions. • Conducted thorough research and stayed abreast of the latest advancements in GANs and image generation technologies.
